

BUILT FOR THE LONG HAUL

# SK 818

VEHICLE PUSH-TO-TALK RADIO

## KEEP THE CREW CONNECTED.

Push-to-talk for over-the-road trucking teams.

CONNECTION FOR EVERY MILE

## Meet the SK 818

The SK 818 combines SKYCOMPTT's secure PoC platform, dual-SIM flexibility, and encrypted digital communication, keeping teams connected through the strongest available cellular network.

## ROAD-READY FEATURES

- Plug and play - no antenna holes to drill
- No wiring - plug into the cigarette lighter and talk
- Dual-SIM auto-switch selects the strongest North American or global network
- 2.4-inch color screen shows talk groups and contacts
- Optional real-time GPS team tracking
- Heavy-duty microphone and coil cable for the roughest environment
- Loud audio speaker for clear audio in high noise areas
- Fully portable between locations and vehicles
